

Factory tour at the Sprinter plant in Düsseldorf. .

After a short presentation about our factory, you will get a detailed insight into the fascinating world of vehicle production. During a tour of the world's largest van plant of the Mercedes-Benz Group, you will be guided through selected production areas. For example, you can experience the ballet of robots in the shell. During a guided tour of the assembly area, you will see the largest pane center in the world. In the Logistics Supermarket, you can find out how vehicle parts are made available for transport on the assembly lines. Comfortable, sturdy and closed-toe shoes are required, as well as long trousers or skirts (welding spatter in the shell). The group size is limited to 15 participants. In the case of school groups, the tour is divided into several small groups after a joint presentation. A minimum age of 18 years applies to visitors, and a minimum age of 14 years applies to minors and school groups (only when accompanied by a person with custody or guardian). You will receive the confirmation and all further information from our helpful factory guides. Experience the exciting and unique world of Sprinter production.
